THE SUPPLY CHAIN SOLUTION FOR FACILITIES MANAGEMENT

Global Supply Chain | Logistics | Mission Support | Technology

NOBLE | YOUR TRUSTED INDUSTRY PARTNER

Noble Supply & Logistics is a Boston-based company that provides goods and services through contracts with the U.S. Government to customers worldwide. We are a Federal Industry leader - #145 on the Bloomberg Government Top 200 List of Federal Industry Government Contractors, a Top 100 GSA Vendor, and listed with the Inc. 5000 Fastest-Growing Privately-Owned Companies in the U.S. We recently expanded our services to commercial businesses to offer supply chain and logistics support for your government facilities management activities.

Our expertise includes:

- procurement for the U.S. Government,
- international shipping fulfillment,
- quality assurance and control,
- contract compliance,
- customs processes,
- and supply chain management.

Our team of professionals in program management, quality assurance, procurement, logistics, warehousing, and inventory routinely work across time zones to find solutions for even the most complex problems. Our subsidiaries across Europe, Middle East, Africa, and Asia expand these capabilities globally.

NO MATTER HOW TOUGH THE CHALLENGE, HOW LONG THE MISSION, OR HOW FAR FROM HOME.

EXPERT SUPPORT FOR GOVERNMENT CONTRACTS

The U.S. Government routinely seeks companies that can provide a wide range of support for facilities maintenance, base operating services, and other contracts to supply materials and provide logistics, warehousing, inventory management, and storefront services. With an extensive supply chain of more than 11,000 suppliers, warehouse management expertise, procurement professionals, and more than two dozen military storefront contracts, Noble offers a complete package to support these requirements. We provide low-price products, quick turnaround, and quality services. We also support non-routine surge requirements during troop build-ups, natural disasters, and humanitarian crises.

OUR SUPPLY CHAIN – TOP MRO, INDUSTRIAL & CONSTRUCTION BRANDS

Our supply chain supports over 250,000 orders annually for customers from DLA, GSA, DoD, FEMA, the State Department, and various State Governments, from our catalog of one million products. The catalog contains industrial and MRO materials as well as office supplies, furniture, and equipment; tactical gear, Jan/San supplies; auto parts; galley products; and safety and tactical equipment. We negotiate volume-based discounts, manufacturer-held inventories, and competitive logistics rates.

LOGISTICS CAPABILITIES

Noble delivers products from our U.S. warehouses, from pre-positioned inventories in Africa, Asia, and Europe, and through local direct purchases. Using multiple supply routes, Noble transports goods from our facilities to the contract-specified warehouses and staging areas using compliant labeling, staging, and shipping. Most orders are filled with U.S. manufactured products shipped from our warehouses or directly from the manufacturer to our customer's site. We also receive requests for quotes daily for locally sourced products to meet tight schedules or local requirements.

OUR GLOBAL FOOTPRINT

To meet demands for the quick turnaround of a wide range of products for our customers in Europe, Africa, the Middle East, Asia, and the Pacific Rim, Noble established subsidiaries in Germany, Djibouti, Kazakhstan, and Okinawa, as well as facilities across the continental U.S., Hawaii, and Guam. We have agreements with logistics partners around the world to lease warehouse space quickly, subcontract their trained staff to support surge requirements, and maintain inventories for specific requirements. With more than 4,000,000 sf available,

we can ramp up to respond to our customers' needs and ramp down to maintain consistent pricing for our services.

STOREFRONT EXPERTISE

Noble manages storefront operations for NAVFAC, DLA, and the U.S. Air Force, as well as e-commerce support to more than 225,000 U.S. Government and Military customers worldwide. In addition to brick and mortar stores, we manage hazmat within Government systems, Government-owned material, and warehousing under a variety of contract vehicles.

Noble Storefronts offer inventory, sales support, product expertise, special orders for commodities, parts, small equipment, paints and solvents, and our full range of products.

Our in-store customers are greeted by Noble's experienced staff who offer in-person customer service, including product recommendations based on project requirements. The retail staff help our customers find merchandise, explain how the various products work, and finalize purchases. They are responsible for in-store merchandising, including a professional presentation of products, organized shelves, and neat appearance. The store staff enter sales into our e-commerce system, ALPHA. They provide point-of-sales services that include issuing receipts, processing returns, managing warranty programs, handling product returns, and communicating backorder, delivery schedule, receipt, and special-order status information to customers.

NOBLE'S ALPHA E-COMMERCE SYSTEM

For all activities, we offer ALPHA, a proprietary custom application for EDI, total asset visibility, real-time inventory, streamlined invoicing, quoting, sourcing, and tracking. ALPHA is a full-featured web-based inventory procurement and e-commerce solution designed with government customers in mind. It offers advanced search and navigation, multiple payment options, product comparison and reviews, RFQ requests, contract pricing, complete order history, and real-time shipment status.
